## ROLES AND RESPONSIBILITIES

---

### PATIENT SAFETY

Every employee's responsibility is to ensure that the hospital's patient safety goal continues to be the centrepiece of our quality and risk management program and that every patient is treated within a safe environment. To ensure compliance with this goal, each employee must:

- Find, report, and prevent incidents/near misses or adverse effects
- Communicate/report areas of concern immediately to your Manager
- Complete a Near Miss Form or Incident Report to communicate or report incidents or near misses

### SUMMARY OF POSITION:

The Registered Nurse delivers nursing care in accordance with current practice standards of the College of Nurses of Ontario and with all relevant legislation. The Registered Nurse functions within the hospital policies and procedures and is accountable for own actions. The Registered Nurse functions in the capacity of Team Leader as delegated by the Clinical Manager.

---

## NATURE AND SCOPE OF WORK

---

- Uses the nursing process effectively in delivery of care
- Conducts admission procedures and a nursing history
- Assesses and identifies patient needs in consultation with team members and develops appropriate care plans
- Participates in unit's nursing audit and Quality program
- Provides health teaching to patients/families
- Co-operates with affiliated secondary schools, colleges, and universities in providing learning opportunities to students
- Works co-operatively and collaboratively with all members of health care team in planning and provision of care
- Maintains competency relative to current practice through active participation in in-service and continuing education programs

- Practices within their scope of practice, as per the policies of WDMH and the College of Nurses (CNO)
- Delegates functions appropriately and provides effective supervision for those team members to whom delegates tasks
- Communicates relevant clinical information to appropriate members of the multidisciplinary care team, in a timely fashion
- Documents care, and patient information in the Clinical Record as directed by hospital policy and procedure
- Contributes to the ongoing assessment of the health needs of the patient
- Provides health teaching to patients and their families. Assist with inter-hospital transfer of patients
- Participates on various hospital committees and supports quality improvement processes
- Attends unit staff meetings as often as possible and read circulated documentation/minutes to remain abreast of changes and Hospital activities
- Administers medications according to accepted standards of practise
- Utilizes narcotics in accordance with all standards and legislation
- Regularly attends unit meetings
- Practises with due regard for the security of the building and of co-workers, as well as for approved budgets
- Assists with care on units other than her/his usual unit as required
- Assists in the orientation of new employees

---
