ROLES AND RESPONSIBILITIES

PATIENT SAFETY

Every employee's responsibility is to ensure that the hospital's patient safety goal continues to be the centrepiece of our quality and risk management program and that every patient is treated within a safe environment. To ensure compliance with this goal, each employee must:

- Find, report, and prevent incidents/near misses or adverse effects
- Communicate/report areas of concern immediately to your Manager
- Complete a Near Miss Form or Incident Report to communicate or report incidents or near misses

SUMMARY OF POSITION:

Under the supervision of the Clinical Manager, the Respiratory Therapists provide care as established by the College of Respiratory Therapists of Ontario and the standards of respiratory care of this hospital. The Respiratory Therapists participates in service and hospital-wide activities and programs that model and promote a safe and healthy patient-centred environment and that contribute to quality improvement and risk management initiatives.

NATURE AND SCOPE OF WORK

- Perform cardiopulmonary assessments/monitoring of patients requiring respiratory therapy/cardiopulmonary services including taking patient history, and conducting a complete physical assessment as related to respiratory therapy and act based on the findings
- Develop, initiate, follow-up, evaluate individual treatment plans and re-adjust as needed
- Perform arterial punctures (arterial blood gas sample procurement)
- Perform arterial line insertion
- Perform oximetry and other non-invasive testing such as end-tidal CO₂ monitoring
- Perform pulmonary function testing to determine lung function and respiratory muscle strength
- Review laboratory and radiological data pertaining to respiratory conditions such as reviewing X-rays for ET tube placement

- Attend all cardiac and respiratory arrests and medical emergency situations
- Perform resuscitation and life support protocols
- Perform basic and advanced airway management as part of the Code Blue/Pink response team
- Initiate, monitor and discontinue patient sedation or assist with sedation
- Maintain cardiopulmonary stability
- Maintain airway and provide artificial ventilation during transfer/transport of critically ill and unstable patients
- Manage the technical and clinical demands associated with transport and independent travel
- Participate in pertinent patient rounds
- Assess patients and perform consultations for respiratory home oxygen as per the Ministry of Health guidelines
- Liaise with respiratory home care vendors
- Provide and monitor supplementary oxygen and other therapeutic gases
- Provide humidity and aerosol therapy
- Administer patient medication by inhalation and by instillation into the trachea
- Set up and verify humidifying and nebulizing equipment
- Perform pre-operational check, calibration, maintenance and troubleshooting of respiratory care equipment
- Perform suction therapy
- Perform bronchopulmonary (chest) hygiene procedures
- Perform sputum inductions/collection procedures
- Perform augmentive ventilation techniques (lung volume recruitment) and airway secretions clearance techniques
- Perform insertion and care of nasogastric and orogastric tubes
- Establishes plan for and performs artificial airway weaning, and patient extubation
- Prepare and assist with intubation
- Set-up, establish care plan for, verify and remove phonation devices
- Performs tracheostomy tube change over a 7-day old stoma
- Prepare manual ventilation equipment
- Provide non-invasive positive airway pressure therapy
- Prepare appropriate mechanical ventilation equipment
- Participates in Pre-Operative Assessment Clinic as required
- Perform diagnostic tests to evaluate the extent of respiratory impairment and response to treatment/therapy such as spirometry and pulmonary function tests
- Assist or support patients' ventilation manually or with mechanical ventilator
- Initiate, monitor, adjust and follow-up with invasive and non-invasive mechanical ventilation
- Wean patient from mechanical ventilation and rescue Bi-PAP therapy
- Monitor parameters associate with invasive and non-invasive equipment
- Follow indicated protocols, promote safety
- Follow infection control guidelines; use protective equipment adequately
- Provide general Respiratory Therapy consultation
- Offer smoking cessation aids and counselling services
- Maintain accurate records and documentation pertaining to patient care, technical preparation of equipment and assistance with the provision of respiratory/ventilator management, according to the College of Respiratory Therapists of Ontario Professional Standards and Winchester District Memorial Hospital records
- Ensure seamless respiratory therapy services within scope of practice

TRAINING, EDUCATION, AND RESEARCH

- Provides health teaching to patients and their families on respiratory diseases and/or disorders
- Counsel in-patients and out-patients on the proper use of inhalers, spacer devices and general respiratory rehabilitation
- Provides in-service education to both medical and nursing staff on all aspects of Respiratory Therapy. The Therapist will act as an advisor on the purchasing of respiratory therapy equipment and may offer advice or recommendations on related topics that involve respiratory management

Get to Know Winchester District Memorial Hospital

WDMH is a rural teaching hospital just south of Ottawa. We care for our local communities from childbirth to seniors' care – and are a hub site for cancer care, dialysis and cataract surgery.

WDMH has a 24/7 Emergency Department and Diagnostic Imaging services, including digital mammography and CT scans. Day surgery and specialty clinics, with visiting specialists from Ottawa hospitals, mean that patients can receive care without travelling to the city. And we are committed to education and research.

Get to Know Our Region

- Rural and suburban lifestyle
- Reasonable driving distance to bigger cities like Ottawa, Montreal, and the border to the United States
- Driving distance to St. Lawrence and Rideau water systems
- Lower housing costs with bigger lot sizes and local parks, open spaces and hiking trails
- Smaller schools
- Large variety of rural community and agri-tourism events
